SYLLABUS IN ITE191 CAPSTONE PROJECT 1
BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY
1st Semester, School Year 2023-2024

MINDANAO STATE UNIVERSITY-MAGUINDANAO VISION, MISSION, GOALS, AND OBJECTIVES

Vision

The premier innovative center of development in the region.

Mission

To train and enhance human capital through:

- Quality educational experiences;
- Relevant research and innovations and regional and national development; and
- Responsive community engagement and empowerment

CORE VALUES

R- Responsiveness

I- inclusiveness

S- Sustainability

In- Innovativeness

G- Global Competence

In- Integrity

Collaboration

GOALS

The **COLLEGE OF ARTS & SCIENCES** aims to produce quality graduates in Information and Communication Technology, Islamic Studies, Political Science and Peace and Development Studies.

OBJECTIVES (College)

1. Deliver quality and modernized and modernized standard instruction in the fields of Arts & Sciences;
2. Equip students with intellectual, physical, social, psychological, and spiritual skills;
3. Produce globally competitive graduates;
4. Engage in research and extension services in different disciplines;
5. Strengthen linkages with Government, Private and Non-Government Organizations;
6. Ensure exclusive and equitable quality education that promote global learning opportunities;
7. Adapt to universal access for global degree of improvement in efficiency; and
8. Imbibe the concepts of peace, peacebuilding, diversity, inclusiveness, and respect in the curriculum as part of the pursued profession.

I. THE COURSE

- A. Course number : ITE191
- B. Course Title : Capstone Project 1
- C. Course Credit : 3
- D. Hours/week : 3 hours per week
- E. Prerequisite/s : ITE132 (Fundamentals of Computer Networks)
- F. COURSE DESCRIPTION :

As a capstone course of the Information Technology Program, the student will demonstrate the collected knowledge, skills, and techniques acquired in the program of study through a variety of assessment methods. Students will demonstrate problem solving, critical thinking, research techniques, and technical writing. Information Technology ethics, professional responsibility, and team dynamics will be emphasized to help round out the student's education.

II. GENERAL LEARNING OUTCOMES

At the end of the semester, the students can:

1. Formulate the Project Objectives, scope and limitations, and evaluation metric for a chosen problem.
2. Collect and compare literature related to the topic.
3. Propose an ethical and feasible information systems solution to the identified problems in the project.

III. DEVELOPMENT OF THE COURSE

Desired Learning Outcomes	Learning Content	Strategies / instructional materials	Assessment activities/tasks output	Evaluation measures & tasks assessment tools	Evidence of attainment (outcomes)	Time frame for every objective
Orientation on VMGO, University Officials and Policies, Classroom Policies, Course Requirements, and Grading System						
Prelim						
• Define Capstone Project • Identify IT project Domain • Differentiate Capstone Project and Thesis • Formulate Capstone Project Proposal	Review of the Information Technology domain	Lecture Illustration	Reading assignments	Class Interaction	A documented capstone proposal	1
• Outline Capstone Project Plan • Discuss Research Process • Design a research process of a Capstone Project	Overview of the research process	Lecture Illustration	Reading assignments	Class Interaction	A documented capstone proposal	2

- Find Capstone Project Topic - Write a working Capstone Title	Identifying the research topic or organizational issue	Lecture Illustration	Reading Assignments; Write-up	Write up of research concept	A documented capstone proposal	3
- Organize a review of related literature and studies - Demonstrate skills in acknowledging resources - Construct literatures related to research topic	Preparing and writing a literature review	Lecture Illustration	Reading Assignments; Write-up	Annotated Bibliography write-up	A documented capstone proposal A documented synthesis of the literature or a state-of-the-art-review	4
- Write a research study description - Write a background of the study - Compose statement and objectives of research - Outline the scope and limitations of research study - Identify the significance of a research study	Presenting project proposal: introduction	Lecture Illustration	Reading Assignments; Write-up	Write-up (introduction, literature review, and conceptual framework)	A documented synthesis of the literature or a state-of-the-art-review	5-6
Midterm						
Identify and justify research method	Quantitative methods and approaches	Lecture Illustration	Reading assignments	Write-up (Technical Requirements)	A documented capstone proposal and approved verdict	7

appropriate to a research study				Data Gathering Procedures	for project proposal defense	
Identify and justify research method appropriate to a research study	Qualitative methods and approaches	Lecture Illustration	Reading assignments	Write-up (Technical Requirements) Data Gathering Procedures	A documented capstone proposal and approved verdict for project proposal defense	8
- write technical background of a research topic - propose technologies to use to implement a research project	Design science methods and approaches	Lecture Illustration	Reading assignments	Write-up (Technical Requirements) Data Gathering Procedure	A documented capstone proposal and approved verdict for project proposal defense	9
- Write a research methodology of a research - Analyze and design an appropriate methodology for a system project - Formulate timeline and schedule of a research project	Preparing and writing the methodology	Lecture Illustration	Reading Assignments; Write-up	Write-up research plan and Methodology	A documented capstone proposal and approved verdict for project proposal defense	10-12
FINAL						
Present a research proposal	Presenting the Project proposal	Lecture Illustration	Write-up; proposal presentation	Complete Proposal and Panel Verdict	A documented capstone proposal and approved verdict	13-18

					for project proposal defense	
--	--	--	--	--	------------------------------	--

IV. COURSE REQUIREMENTS

Research Proposal

V. GRADING CRITERIA

Capstone Project Manuscript	
Content	30
Organization	15
Significance/Impact	15
Oral Presentation	
Mastery of the Subject Matter	15
Ability to defend ideas	15
Presentation	10

Computation:
 (Ave. Rating of Panel Members x 50%) + (Subject Teacher's Rating x 50%)
