

Admin:

Improve the filterization of reports important

Remove the Export sa lahat ng table and revise the export report ng pdf at print table (admin dashboard, Modules, Students, Faculty, Departments, Degree Programs) dapat merong General and Individual make sure its specific transfer it to Reports alisin ang **Export to Excel**. Indicated dapat kung kanino galing ang module uploaded kung saan department and degree programs at ilan ang na upload ng isang faculty from each course code (Syempre sa isang faculty hindi lang isa ang hinahandle na subject) pwedi dapat i-filter. When it comes of Uploading of modules naman dapat filtered sya for 1st sem and 2nd sem if I access ng client and system.

Make sure makikita din kung sino sino ang mga students na nag download from each department and degree programs sa Reports Print of PDF and Print Table.

Add a backup and Restore for the modules.

Admin, Faculty, Students

sa mga modules naman dapat ma filter sya if it's for 1st sem and 2nd sem when it comes to uploading.

and add a feature where pwedi may button to add more modules para pweding isahan or maramihan ang pag uploading sa isang Course Code eg: CCC101.

Admin – has the power for the approval and access by client.

Faculty - submission/uploading of modules. Provide an option who will view the modules for the students

Students - Search by course Code, Course Title, Course Description and Topic/Lesson Modules will be Limited base on the degree program of the student and its curriculum prospectus.

Dapat sa student dashboard similar sa faculty gawin lang Course Code para kung I clicked ni student dun lang mag labas yung mga specific topic sa isang Course Code and sa searching Course Code Course Title, Course Description and Topic/Lesson and make sure its filtered base of their curriculum per sem add a function if nakapag select na module merong search for specific topic sa modules.
